OF THE "GENTRAL KENTUCKIAN."

Lebanou, since the completion of the Railroad, counceling it with Louisville, is a point of interest to a large section of country. There are hundreds of persons abroad who are in want of information upon various topics connected with it, such as the prices carrent, lacifities fordoing and having business done here, &c., and the clitzons of Lebanon themselves, wish to inform the public at large, that it is one of the most enterprising and flourishing towns in the interior of the State, and that it offers great inducements as a place of residence to men of almost every honorable trade and profession. Fo supply these wants, of people abroad and citizens at home, we have determined to publish "The Central Kenneklan"—a paper devoted to the Commercial, Agricultural, Literary, and Moral welfare of the committees of all concerned, to supply a desideratum long fett.

What is Evidence!

This is a question to be decided by lawyers, and many debates have taken place before juries us to what should constitute evidence -The lives of many men have depended on the rulings of the Judge upon this question, and there are few legal men but who will admit that it is one of the most important matters ever brought before a court. Everything depends upon it, in asmuch as no case can be decided without evidence, on one side or the other. We have been led to these remarks by the stalement that at the last term of the Franklin Circuit Court, witnesses were before the grand jury who gave information of several breeches of the law and acts of vio lence at the polls, at the last August election. It may not be inappropriate to tell the truth con eerning those witnesses, as it has been told to us by the most reliable persons, and as we have rea sons to believe it exists. At the last session of the Circuit Court an anonymous letter was written to the Grand Jury of Franklin county, giving in formation against several of the most respectable and influential citizens of Frankfort for rioting at the polls.

The Democratic portion of the Jury, headed by a person who was most prominent in the proscription uf an exemplary minister of the gospel of Jesus on account of his politics, determined upon bringing in a true bill against those gentlemen upon the strength of this evidence; but, as good fortune would have it, a majority of the Grand Ju ry were Americans, who, as was their duty, demurred from the decision of the Democrats until they received instructions from the Judge. Nut tall. When both parties represented the facts of the ease to Judge Nuttall, that gentleman promptly and rightly decided that the law did not permit the Grand Jury to indict any one upon the information contained in an anonymous letter, and sustained the Americans in their determination notto bring in an indictment upon such evidence He instructed the jary that they must obtain bet ter and more reliable testimony than a letter without a responsible indorser, before they should nttempt to stigmatise the names and characters of respectable men and good citizens.

It is reported that when these instructions were returned to the Jury, the Democrats worked themselves into a perfect rage, and denounced Judge Nuttall in the most unmeasured terms. They even charged upon him that most beinous of all offenses, that he was not a good Democrat-be cause, for sooth, he would not permit Americans to be indicted when there was no one to appear against them. Some of them even swore that they would never vote for him again, and gave him to understand that he need not expect the next political nomination for Judge unless he be came more of a partizun in his decisions. Per haps this is the reason why a Catholic priest exerted himself against the Judge for the nomination for the Appelate Clerkship-alleging that he was not sufficiently Democratic in his couduct

Now, who but Democrats would ever dream of calling this evidence? and we do not think it can be satisfactorily shown that any other was brought before the grand jury. Surely it was not half so reliable as the oath of a conscientions negro. which is not admitted by law. Yet the Demoerats would have indicted some of the most respectable men in the State for a Penitentiary offense upon this testimony. We do not think our sapient Senator had any better, yet he "spread himself" upon the subject. Such conduct well becomes the proscriptive party which treated Me-Corkle in the manner he was served this winter It is eminently worthy of the party which would prevent the extension and growth of Louisville because of the politics of her citizens. It is worthy of the party which would remove the seat of government from Fraukfort, because the ma jority here are Americans. And it is most pre emineutly characteristic of the party which would be guilty of a disreputable, mean, and pusillani more trick, in order to turn an American Cousta ble's precinct into a Democratic neighborhood.

THE FARMERS IN THE HOUSE.-It is generally believed among farmers that men belonging to their own class of citizens, and acquainted with their wants and necessities, are most apt to look after the interests of agriculturalists. It is a significant fact, however, that out of the forty-two farmers in the House of Representatives, only twelve voted for printing the Report of the State Agricultural Society, the others voting against it. This may be accounted for by the fact that the forty who opposed it were all Democrats. There is a vast difference between sending an American and a Democratic farmer to the Legis

Ma. Heaatwell's Benefit -We take great pleasure in announcing Mr. Heartwell's benefit for to night. He has performed nearly all the principal parts at the Theater this winter, and, being ably supported by Mr. Stetson, has administered much to the pleasure of our Theater goers. In fact, there would have been no getting on without him. Ilaving labored faithfully for the ap plause and favor of the audiences who have nightly witnessed his performances, he now hopes and expects that they will testify their apprecia tion of him as an actor. His delineations of character are usually fine, and to night he plays in a part best suited to his powers. We trust that he may have a large and appreciative audience.

IN SENATE.

Mr GILLIS said: Mr. Speaken: It is argued against this bill, of course force the Keeper to work the con-victs, both as regards the length of time and the

which, both as fegative the temperature of the and the physical exertion required, in a manner which would be repugnant to every feeling of charity, and the claims of a just humanity.

I have been giving my assent to the passage of this bill with the Senate's amendment, and I wild to a passage of this first to a passage of this first to a passage of the passage of nd feelings of humanity. But, sir, let us look in eality there is any just cause for the exercise of hose very laudable sentiments; in fact, sir, aving looked somewhat closely into the facts, I have bren led to doubt whether those opposing the passage of the bill, have not lost sight of the convicts in the State Prison, and arc desiring to exercise their charities and humanity, in behalf of the pecuniary interests of a political partizan. What, Mr. Speaker, are the facts? There are n the prison 236 convicts, which at 161/4 cents per day for each working day in the year, mounts to the precise sum in the aggregate of \$12,000 per annum—the sum stipulated in the Il,-now sir, is there a Senator on this floor, who loes not know, that just such a class of hands as hose in the prison, under the regulation incident that institution is worth at least three times that amount per day; this would be about 50 ceuts per day, whereby the Kceper could pay the \$12,000 and put into his own pocket \$24,000 er annum, or in the term of four years, for which

rom Henry is desirous to provide for them. Let us look further, sir, into the advantages hat atlach to the Keeper's interest: The State urnishes him all the machinery, shops, buildings or lodging the convicts, offices for the guards, overseers and clerk, all which do not cost the Keeper one cent And, sir, with all thosu adon plain, substantial, but not costly diet, it cannot e but that the Keeper can realize at least 50 convicts, especially as a large number of them are good mechanics, whose labours are exceedingly valuable.

The Senator from Woodford (Mr. Porter.) charges on the American party, that in the last Legislature we took precisely reverse ground to hat now occupied by us, and asks me why I oted to give to a political favorite, Mr Ward,) he lease at \$6,000 per annum, when Democrats, is he was informed, were offering \$10,000, or, at least, when a greater sum than that offered by Mr. Ward was offered, or could have been ob tained. The Senator will permit me to state that we were then very differently situated from what or present position is. In the first place 1 will tate that no such proposition was made to mc. this floor had any power to act upon it; we had o power to pass any law in relation to it except such a one as the then Keeper would accept; he had been elected Keeper for four years, and one year only of the time had then expired, he had his contract with the State, and the Legislature hid no power to change that contract in any par ticular, save by the consent of the Keeper. That Legislature did, however, secure, through the ment unconditionally of \$18,000 net profits into the Sinking Fund for the remaining three years of Mr. Ward's term instead of \$15,000 which is the extent he was bound to guarantee under the contract by which he then held. These are the historical facts of the case—facts well

known to the country.

But, sir, a very different state of facts surround us now. The Legislature is one of the contractig parties-the Keeper to be elected the other Legislature stipulated, that, as the agent of the State, she must have \$12,000 per annum, for the use of the prison, and the present Keeper comes lorward and proffers to close con tract with the Legislature at that sum. Recol leet that within the last twn years the State has expended more than \$30,000, upon improve ments on the prison grounds and boildings, and if a Democrat could, two years ago, have afforded to give \$40,000 per annum for the prison upon lease, he could surely now afford to give \$12,000 ith the additional improvements; the interest on the east of which, added to the \$10,000, which is said to have been offered, would exceed the sum

Here, then, Mr. Speaker, is a plain state of ets, showing our position now, and contrasted party, and we are endeavoring to exercise that power for the benefit of the Commonwealth and he country, at the same time that we guard the the labor and industry of the Keeper.

But we are tauntingly asked "what change has ome o'er the spirit of our dreams." We might, with propriety, retort the taunting interrogators know not that any change has been effected in he minds of Senators now upon this floor, with whom I had the honor to serve two years ago; but, sir, I appeal to those then here, and ask how different are the arguments now used by our political opponents, from those uttered on this floor on th a same subject two years ago by the same party a gum ents precisely opposite, as much so as the ex-tremes of light and darkness. Who, sir, then here, has forgotten the powerful oratorical ap reals of the then able and distinguished Senate from Grant, who as one of the "few shining lights of the Senate," (as he on one important occasion was pleased to term himself and the members of his party,) devoted more time and attention to the advocacy of the very position now here de nounced by his party friends, than all that has been said and done in this Senate by the friends of this bill with the Senate's amendment.

His arguments then were, that the prison was worth far more than had ever been paid the State for its use,-that some of the former Keepers and made fortunes by having the management of the prison—going in beggars, and coming out with splendid fortunes. And, sir, if my recollection is not greatly at fault, the Democratic print of this city was, about that time, occupying a like position on this subject. These arguments led to an investigation, and the result was that two years ago we induced the Keeper to accept tho terms of the present lease by which we seenred \$3,000 more for the balance of his term than he would otherwise have been bound to guaranty as

et profit to the State.
[The Senator from Woodford (Mr. PORTER,) isked Mr. Gillis if it did not appear from Mr. Ward's report, ut that time, before the Legislature, that the two-thirds of the profits to which the State was entitled, would have amounted to

nore than six thousand dollars.] Mr. GILLIS. 1 will answer the Senator's question by saying that it is probable the Keeper's port showed such a state of facts-but that he Mr. Gillis, I well knew that it had almost uniersally been the ease that all the profits were narrowed down, and amounted to nothing above the amount guarantied, as the State had always to come in and pay out all such profits in the say, that in that ease I acted upon the report of eleck of the prison; authority for the using of which I did not expect to be called in question by the Senator from Woodford, especially as he pased his entire first speech on this question be ore the Senate to day, on this very report, this very document, which placed the whole profits at \$6,000. The American party—if I am reduced y the course this question has taken to speak o he action of those favoring the Senate's amend ment, as of a party character—has acted consis-tent throughout, and it now remains for our poitical adversaries, who ride upon the chariot of party triumph in the other end of this capitol, to efeat the just and wholesome amendment of the cenate. Let them do it, and go before an injured the Eve which require either medical or surgical unstituency and an incensed public, and answer to them for having wilfully withheld from the public coffers \$16,000 of their money, and put it visits. [See Lexington papers.] in the pocket of a political favorite and partizan. Dec. 10, 1857-tf.

IT It is reported that Hon. Geo. R. McKee, Know-Nothing candidate for Clerk of the Court of Appeals, has secured the services of Ilon. Jno. B. Iluston, of Clarke, who will traverse the State der consideration, the Senate having stricken out \$8,000 per annum, and inserted \$12,000, and the question being on its passage,

It will be difficult to decide to the facts in this case, and let us see whether in which will gain the most votes by those two
